PROFESSIONAL SUMMARY

Results-driven AI Engineer and Front-End Web Developer with hands-on experience building intelligent business automation systems and responsive web applications. Architected a full Zoho CRM Quotation Automation System and an AI-powered Google Ads performance pipeline using Google Apps Script and Gemini AI — delivering measurable business impact. Proficient in React.js, Vue.js, JavaScript, and CRM automation tools. Strong cross-functional collaborator experienced in API integration and delivering scalable, production-ready solutions.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Web Technologies: HTML, CSS, React.js, Vue.js

Automation & Scripting: Zoho Deluge, Google Apps Script, Workflow Automation, Client-Side JavaScript (CRM)

CRM & Business Tools: Zoho CRM (Enterprise), Zoho Writer API, Cloudinary, Google Ads Script, Google Sheets

Tools & Platforms: CRM Systems, Ticketing Systems, Zoho Writer, Cloudinary CDN

Soft Skills: Problem-Solving, Client Interaction, Cross-functional Collaboration, Documentation, Time Management

PROFESSIONAL EXPERIENCE

Standard Roofs

Erode, Tamil Nadu

AI Engineer

Jan 2026 – Present

- Architected and deployed a full end-to-end **Zoho CRM Quotation Automation System** using a 4-layer tech stack (Workflow Rules, Deluge Functions, Client Scripts, Zoho Writer API), reducing quote generation time to under 1 minute with zero manual errors.
- Automated **30+ CRM fields** across **14+ workflow rules** — including serial number generation, client data auto-fetch, roofing spec autofill, product image sync via Cloudinary, and PDF generation via Zoho Writer API.
- Built and deployed an **AI-Powered Google Ads Auditor (v5.0, Live)** that pulls daily keyword/search-term performance data (285+ real queries), processes it through AI, and delivers a color-coded STOP/SCALE/FIX report via HTML email by 7:00 AM IST.
- Identified **₹4,952 in wasted ad spend** (97% of ₹5,113 tracked) within 8 days of deployment using automated AI analysis.
- Engineered a dual AI API key architecture with retry logic, static fallbacks, and backoff handling — ensuring production-grade reliability at **zero monthly operating cost**.
- Collaborated directly with business stakeholders to translate operational requirements into fully automated, scalable CRM and marketing solutions.

Macincode Technologies – Clops AI

Salem, Tamil Nadu

Front-End Web Developer

Apr 2025 – Aug 2025

- Developed responsive, user-centric web applications using HTML, CSS, JavaScript, React.js, and Vue.js.
- Built and deployed the frontend of **MonsterFoods** — a live, real-time food ordering web application — using Vue.js.
- Translated UI/UX designs into clean, functional front-end code; applied component-based architecture, state management, and performance optimization for scalable solutions.
- Collaborated with cross-functional teams on production projects and contributed to code quality and delivery timelines.

Sixth Force Solution PVT LTD

Chennai, Tamil Nadu

Product Support Engineer

May 2023 – Nov 2023

- Provided technical support and troubleshooting across product lines, maintaining high customer satisfaction rates.
- Delivered customer training sessions that improved product adoption; reduced average response time by **20%** through process documentation and workflow improvements.
- Collaborated with cross-functional teams to diagnose and resolve complex product issues efficiently.

PROJECTS

- Zoho CRM Quotation Automation System** | Zoho CRM | Deluge | JavaScript | Zoho Writer API | Cloudinary
- End-to-end CRM automation for Standard Roofs using a 4-layer architecture (Workflow Rules, Deluge backend, Client Script JS, API-based PDF generation). Automated 14+ fields and 14+ workflows including serial number control, client data fetch, roofing spec autofill, color-to-image sync, and auto-attached PDF to CRM records.
 - Reduced quote creation from a multi-step manual process to under 1 minute. Status: 95% complete, production-ready.
- AI-Powered Google Ads Auditor (v5.0 — Live)** | Google Apps Script | Google Ads Script | Google Sheets | Gmail API
- Fully automated Google Ads performance pipeline — collects 285+ keyword/search-term data at 6:00 AM IST daily, analyzes 7-day trends, and delivers a color-coded STOP/SCALE/FIX HTML email report by 7:00 AM IST.
 - Flagged ₹4,952 wasted spend (97%) within 8 days. Dual API key architecture with retry logic, 503 backoff, and static fallbacks. Monthly cost: ₹0.
- Movie List App** | React.js | REST API | Hooks | State Management
- Responsive React app for browsing and searching movies in real time. Integrated external APIs with error handling and loading states; emphasized clean code, reusability, and efficient rendering.
- Smart Magical Mirror using Image Processing** | Image Processing | Python
- Academic project (Jan 2022 – May 2022) — smart mirror system using real-time image processing to display personalized information overlays.

KEY ACCOMPLISHMENTS

- Identified ₹4,952 in wasted Google Ads spend (97% waste rate) in 8 days using AI-powered analysis.
- Automated CRM quote generation from a manual multi-step process to under 1 minute with zero errors.
- Reduced product support response time by 20% through workflow process improvements.
- Exceeded customer satisfaction benchmarks, contributing to improved client retention.
